

Welcome Message

Dear fellow academic members!

We are delighted to welcome you to the 14th Annual Meeting of the Society of Gastrointestinal Intervention (SGI 2021) to be held in Incheon, Korea on October 8-9, 2021.

Our society is a unique multidisciplinary society founded to encourage and facilitate the clinical and scientific collaborations between radiologists, surgeons and gastroenterologists. The goal of our society is to build a comprehensive GI intervention network among endoscopists, interventional radiologists and gastrointestinal surgeons to provide a platform for multidisciplinary collaboration. We hope to provide a network where experts can advance, inform, share, and globalize technological innovations of each specialty. The society aims to support and educate young brilliant doctors in the early stages of their career as a specialist and guide their ways into the global stage. Final and foremost, our will set an example showcasing the benefits of multi-disciplinary collaboration in science, education and clinical practice.

To achieve these goals, we hold an International Academic Conference once a year, and publish quarterly an academic journal titled the 'International Journal of Gastrointestinal Intervention (IJGII)'.

Since the 1st conference held in 2007, the society has been holding an academic conference once a year. In 2018, the 12th conference was held, for the first time outside of South Korea, in Nanjing, China. After the successful meeting in China, we have decided to alternate the host country between Korea and other countries. The 14th academic conference was scheduled to be held in Hyderabad, India in 2020. Unfortunately, the conference was canceled due to the COVID-19 pandemic and was substituted with a small group meeting in Korea.

As you know, we have been dealing with the unprecedented COVID-19 pandemic that has changed our daily lives. Considering the current situation, the organizing committee decided to hold the SGI 2021 as a Hybrid meeting (it will be partially conducted as a virtual meeting) and we will do our best to ensure a seamless connection with you. The theme of this conference is "One Step ahead of GI Intervention: Collaboration and Competition", and we invited internationally renowned scholars to assist you in your research and patient care.

We look forward to your active participation.

Thank you.

Society of Gastrointestinal Intervention

ABOUT SGI

GOALS

The primary goals of the SGI are to:

KEY FEATURES OF SGI

- ◆ Multidisciplinary
- ◆ Collaboration
- ◆ Unique Expertise
- ◆ World-Leading Vision

1

Maximize Interdisciplinary Collaboration

Establish a comprehensive GI intervention network between endoscopists, interventional radiologists, and GI surgeons for multidisciplinary collaboration and interaction

2

Share Technological Innovation

Inform, promote and globalize outstanding technological innovations of each specialty

3

Foster Future Specialists

Aid young brilliant doctors to make an early debut on the international stage through SGI

4

Become a Role Model

Become a role model as a unique international meeting in the field of GI intervention

International Journal of Gastrointestinal Intervention (IJGII)

As the official journal of the Society of Gastrointestinal Intervention (SGI), *International Journal of Gastrointestinal Intervention* (IJGII) delivers original, peer-reviewed articles for gastroenterologists, interventional radiologists, surgeons, gastrointestinal oncologists, nurses and technicians who need current and reliable information on the interventional treatment of gastrointestinal and hepatopancreaticobiliary diseases. Regular features also include 'state-of-the-art' review articles by leading authorities throughout the world. IJGII will become an international forum for the description and discussion of the various aspects of interventional radiology, endoscopy and minimally invasive surgery.

IJGII (pISSN 2636-0004, eISSN 2636-0012) was published four times a year on the last day of January, April, July, and October, which has effected from January 1 in 2019. This Journal was first published biannually on June and December, beginning in December 2012 under the title '*Gastrointestinal Intervention*' (former pISSN 2213-1795, eISSN 2213-1809) and was changed to be published three times a year from 2016. Commencing with the January 2019 issue, the Journal was renamed '*International Journal of Gastrointestinal Intervention*'. Its ISO abbreviation is *Int J Gastrointest Interv*. Free full-texts are available at the homepage (<http://www.ijgii.org>). The Journal is currently indexed in Scopus, Korea Citation Index (KCI), KoreaMed, ScienceCentral, DOAJ (Directory of Open Access Journals), DOI/Crossref, Google Scholar, and Emerging Sources Citation Index (ESCI).

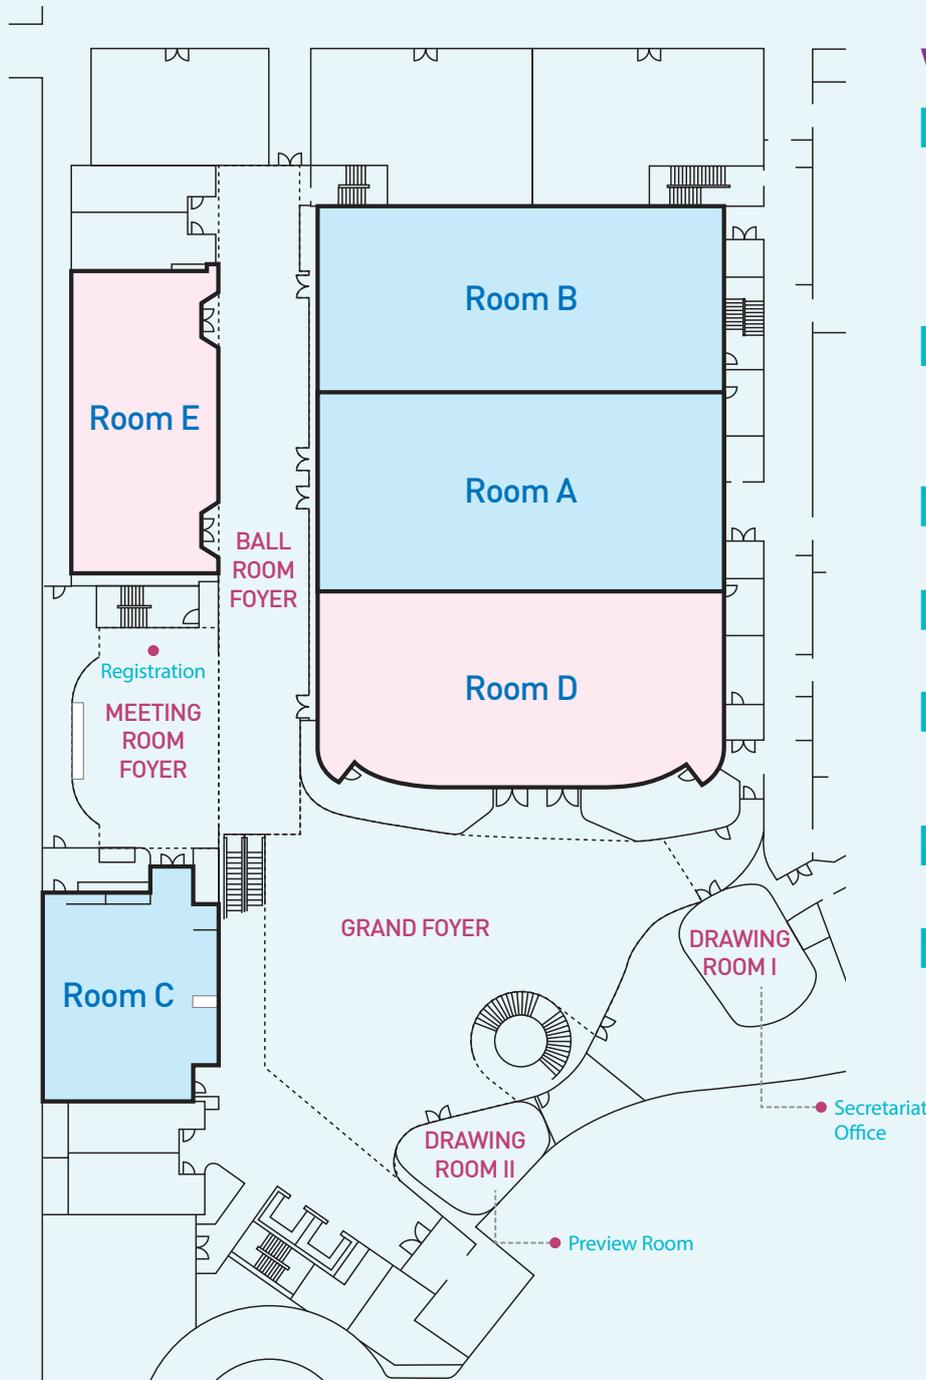

Day 1 / October 8 (Friday)

Time	Room A	Room B	Room C
08:00-09:10	Session 1. Multidisciplinary approach for walled-off necrosis: When and how?	Session 2. Management of IBD complications	
09:10-10:20	Session 3. Cutting edge of management for hilar obstruction	Session 4. Multidisciplinary approach to diagnosis and treatment of GIST: Challenges and solutions	
10:20-10:30	Opening Ceremony		
10:30-11:00	Coffee Break		
11:00-12:20	Live Demonstration 1 (Hyderabad, India)	Session 5. Cutting edge of the third space endoscopy	Pearls of SGI case conference (11:00-12:30)
12:30-13:20	Luncheon Symposium 1		
13:20-13:30	Break		
13:30-14:50	Session 6. Meeting with the innovative stents and devices	Session 7. How to cope with complications throughout the GI tract - Bleeding and afferent loop syndrome	
14:50-15:20	Coffee Break		
15:20-16:40	Session 8. Debate for applicability in palliation of malignant distal duodenal obstruction	Session 9. Multidisciplinary management of postoperative fistulous complication	
16:40-18:00	Live Demonstration 2 (Barcelona, Spain)	Session 10. Cutting edge of esophageal stenting for malignant or benign diseases	
18:00-18:30	Dinner Symposium		

Day 2 / October 9 (Saturday)

Time	Room A	Room B
08:00-09:20	Live Demonstration 3 (Seattle, USA)	Plenary Free Paper
09:20-09:50	Coffee Break	
09:50-11:10	Session 11. Strategies for safe and effective biliary intervention in difficult situations	Session 12. Artificial intelligence in GI diseases
11:10-12:30	Session 13. How to get through the bile duct stones that are difficult to remove	Session 14. Cutting edge of management for malignant colonic obstruction
12:30-13:20	Luncheon Symposium 2	
13:20-13:30	Break	
13:30-14:50	Session 15. Local ablation of liver tumors: Present and future	Session 16. Optimal approach for minimally invasive enteral access
14:50-15:20	Coffee Break	
15:20-16:40	Live Demonstration 4. (Seoul, Korea)	Session 17. Transarterial radioembolization of liver cancer
16:40-18:00	Session 18. Current strategy of management of post-operative bilio-pancreatic duct stricture	Session 19. Recent update of variceal bleeding management
18:00-18:15	Closing Ceremony	

Floor Plan

West Tower (B1)

Room A (Grand Ballroom II)

- Opening Ceremony
- Scientific Sessions
- Live Demonstrations
- Luncheon Symposiums
- Closing Ceremony

Room B (Grand Ballroom I)

- Scientific Sessions
- Plenary Free Paper
- Dinner Symposium

Room C (Grand Salon III)

- Pearls of SGI case conference

Room D (Grand Ballroom III)

- Industrial Exhibition

Room E (Grand Salon I+II)

- Industrial Exhibition
- E-poster Display

Ballroom & Grand Foyer

- Industrial Exhibition

Meeting Room Foyer

- Registration

Conference Information

Dates	October 8 (Fri) – October 9 (Sat), 2021
Venue	Grand Hyatt Incheon, Korea
Conference Type	Hybrid Conference (In person & Virtual)
Conference Theme	One Step ahead of GI Intervention: Collaboration and Competition
Website	2021.sgiw.org
Official Language	English
Organized by	The Society of Gastrointestinal Intervention Tel: +82-2-473-0089 E-mail: sgisci@sgiw.org
Secretariat	Convention PM Tel: +82-31-903-4385 (Registration: +82-31-908-4383) E-mail: sgi@conventionpm.com [During the conference: Drawing Room I]

Registration

Registration Desk

Date	Time	Location
October 8 (Fri) - 9 (Sat)	07:00 - 17:00	Meeting Room Foyer (B1)

** Name Badge: For security purposes, participants and exhibitors are required to wear their name badges during the conference.

** Certificate of Attendance and Registration Fee Receipt can be downloaded from 'My Page' of the SGI 2021 website.

Opening Ceremony

Date	Time	Place
October 8 (Fri)	10:20 - 10:30	Room A (Grand Ballroom II)

Luncheon Symposium

Date	Time	Place	Place
October 8 (Fri)	12:30 - 13:20	Room A (Grand Ballroom II)	 DAEWOONG
October 9 (Sat)	12:30 - 13:20	Room A (Grand Ballroom II)	 Otsuka

Dinner Symposium

Date	Time	Place	Place
October 8 (Fri)	18:00-18:30	Room B (Grand Ballroom I)	 JW Pharmaceutical

Closing Ceremony

Date	Time	Place
October 9 (Fri)	18:00-18:15	Room A (Grand Ballroom II)

SGI Edelweiss Scholarship

SGI Edelweiss Scholarship has been supporting young doctor from developing countries since 2013. The name of scholarship came from the lyrics "Small & White, Clean & Bright" of the song called "Edelweiss" which is the soundtrack of the "Sound of Music". This program has been designed to build a bright future of those young doctors by gathering pure and small gesture from the heart.

We welcome you to support those young doctors by making donations. The scholarship is open to all young doctors from developing countries, and the recipients will be selected by the scholarship committee. Your support will ease the financial burden of those in need so that they may participate in quality meetings and promote a balanced growth of our field across different regions.

For International Donator
Bank Name: KEB Hana Bank
Account No.: 576-910004-30032
Swift Code: HNBKRSSE

For Domestic Donator
Bank Name: KEB Hana Bank
Account No: 576-910013-92905

Presentation Guidelines

Presentation Method & Type

	Category	Presentation	Q&A
Overseas Speaker	Invited	Recording	Online real-time
	Oral presentation	Recording	Online real-time
Korean Speaker	Invited	Onsite	Onsite
	Oral presentation	Onsite	Onsite

Lecture Time

Session	Allocated Time
Session 1-5, 7, 17	15 minutes (12 minutes presentation+3 minutes Q&A)
Plenary Free Paper	10 minutes (7 minutes presentation+3 minutes Q&A)
Pearls of SGI case conference	15 minutes (10 minutes presentation+5 minutes Q&A)
Other sessions	20 minutes (15 minutes presentation+5 minutes Q&A)

Preview Room

Domestic speakers are required to check-in at the preview room to review their slide(s) and save the final versions. Final presentation file(s) must be uploaded at least 1 hour before the start of the sessions.

Date	Time	Location
October 8 (Fri) - 9 (Sat)	07:00-18:00	Drawing Room II (B1)

E-Posters Display

Date	Time	Location
October 8 (Fri) - 9 (Sat)	08:00-18:00	Grand Salon II (B1)

Scientific Awards

SgI 2021 scientific committee will review all abstracts and presentations. After judging, the following awards will be given to the excellent presentation. Award certificate and prize will be given after conference.

- * Best Oral Presentation Awards: 3 winners USD 500
- * Oral Presentation Awards: 5 winners USD 200
- * Distinguished E-poster Awards: 3 winners USD 200

Invited Faculties

Mariano E. Giménez	University of Buenos Aires	Argentina
Arnaud Lemmers	Erasme Hospital	Belgium
Gao Jun Teng	Zhongda Hospital, Southeast University	China

Scientific Program

DAY 1_Friday, October 8, 2021

Room A

08:00-09:10	Session 1. Multidisciplinary approach for walled-off necrosis: When and how?	
	<i>Jong Ho Moon (Soon Chun Hyang University, Korea), Hwan Hun Chung (Korea University, Korea), Kenneth F. Binmoeller (California Pacific Medical Center, USA)</i>	
08:00-08:15	EUS-guided drainage for walled-off necrosis	Kenneth F. Binmoeller (California Pacific Medical Center, USA)
08:15-08:30	Radiologic approach for walled-off necrosis	Suyoung Park (Gachon University, Korea)
08:30-08:45	VARD (Video-Assisted Retroperitoneal Debridement) for walled-off necrosis	Jung Woo Lee (Hallym University, Korea)
08:45-09:00	Case based discussion - Multidisciplinary approach for pseudocyst/WON	In Rae Cho (Seoul National University, Korea)
09:00-09:10	Q&A	
09:10-10:20	Session 3. Cutting edge of management for hilar obstruction	
	<i>Sang-Soo Lee (University of Ulsan, Korea), Chae Hoon Kang (Eulji University, Korea), Takeshi Ogura (Osaka Medical College, Japan)</i>	
09:10-09:25	What is the best management for malignant hilar obstruction: Via ERCP or EUS drainage?	Se Woo Park (Hallym University, Korea)
09:25-09:40	Novel therapeutic approach for malignant hilar obstruction by interventional radiologist	Young Jong Cho (University of Ulsan, Korea)
09:40-09:55	What is the best management for benign hilar obstruction: Via ERCP or EUS drainage?	Takeshi Ogura (Osaka Medical College, Japan)
09:55-10:10	Novel therapeutic approach for benign hilar obstruction by interventional radiologist	Yozo Sato (Cancer Institute Hospital of Japanese Foundation for Cancer Research, Japan)
10:10-10:20	Q&A	
10:20-10:30	Opening Ceremony	
10:30-11:00	Coffee Break	
11:00-12:20	Live Demonstration 1 (Hyderabad, India)	
	<i>Ji Kon Ryu (Seoul National University, Korea), Kee Don Choi (University of Ulsan, Korea)</i>	
	Asian Institute of Gastroenterology	
12:30-13:20	Luncheon Symposium 1 (Daewoong Pharmaceutical Co., Ltd.)	
	<i>DongKi Lee (Yonsei University, Korea)</i>	
	Efficacy and safety of ursodeoxycholic acid in the prevention of gallstone formation after gastrectomy in patients with gastric cancer	Sang Hyub Lee (Seoul National University, Korea)
13:20-13:30	Break	

13:30-14:50	Session 6. Meeting with the innovative stents and devices	
	<i>Seok Jeong (Inha University, Korea), Sung-Gwon Kang (S & G Biotech Inc.), Hiroyuki Isayama (Juntendo University, Japan)</i>	
13:30-13:50	Stent-directed irreversible electroporation for gastrointestinal tract	Jung-Hoon Park (University of Ulsan, Korea)
13:50-14:10	Functional biliary stent	Chang-Il Kwon (CHA University, Korea)
14:10-14:30	Novel stent for biliary intervention	Hiroyuki Isayama (Juntendo University, Japan)
14:30-14:50	Newly designed biliary stents for interventional radiology	Dong Il Gwon (University of Ulsan, Korea)
14:50-15:20	Coffee Break	
15:20-16:40	Session 8. Debate for applicability in palliation of malignant distal duodenal obstruction	
	<i>Yong-Tae Kim (Seoul National University, Korea), Joon Koo Han (Seoul National University, Korea), Takayoshi Tsuchiya (Tokyo Medical University, Japan)</i>	
15:20-15:40	Endoscopic enteral stent placement: Selection of appropriate endoscopic equipment and stents	D. Nageshwar Reddy (Asian Institute of Gastroenterology, India)
15:40-16:00	Covered stent placement covering duodenal 2nd portion for malignant gastroduodenal obstruction, is it safe and effective?	Jong Hyouk Yun (Kosin University, Korea)
16:00-16:20	Surgical gastrojejunostomy: Applications and obstacles	Young Suk Park (Seoul National University, Korea)
16:20-16:40	EUS-guided gastrojejunostomy: When should you consider using it?	Takayoshi Tsuchiya (Tokyo Medical University, Japan)
16:40-18:00	Live Demonstration 2 (Barcelona, Spain)	
	<i>Tae Jun Song (University of Ulsan, Korea), Moon Kyung Joo (Korea University, Korea)</i>	
	W.I.D.E.R Barcelona	

Room B

08:00-09:10	Session 2. Management of IBD complications	
	<i>Yoon Tae Jeon (Korea University, Korea), Myungsu Lee (Seoul National University, Korea), Taku Kobayashi (Kitasato University Kitasato Institute Hospital, Japan)</i>	
08:00-08:15	Introduction of IBD complication	Florian Rieder (Cleveland Clinic, USA)
08:15-08:30	Medical and endoscopic management of IBD complication	Taku Kobayashi (Kitasato University Kitasato Institute Hospital, Japan)
08:30-08:45	Imaging diagnosis of IBD complication	So Hyun Park (Gachon University, Korea)
08:45-09:00	Surgical management of IBD complication	Seung-Bum Ryoo (Seoul National University, Korea)
09:00-09:10	Q&A	

Scientific Program

09:10-10:20	Session 4. Multidisciplinary approach to diagnosis and treatment of GI stromal tumor: Challenges and solutions	
	<i>Yun Hwan Kim (Presbyterian Medical Center, Korea), Hwoon-Yong Jung (University of Ulsan, Korea), Jeffrey H. Lee (MD Anderson Cancer Center, USA)</i>	
09:10-09:25	Role of EUS in subepithelial tumor	Yonghwan Kwon (Kyungpook National University, Korea)
09:25-09:40	Multiparametric approaches for gastric subepithelial tumors: Focus on GIST	Se Hyung Kim (Seoul National University, Korea)
09:40-09:55	Subepithelial tumors: What to leave, what to attack, and when to ask for help	Jeffrey H. Lee (MD Anderson Cancer Center, USA)
09:55-10:10	Endoscopic full-thickness resection for gastric GIST	Chan Gyoo Kim (National Cancer Center, Korea)
10:10-10:20	Q&A	
10:30-11:00	Coffee Break	
11:00-12:20	Session 5. Cutting edge of the third space endoscopy	
	<i>Hyojin Park (Yonsei University, Korea), Jeong-Sik Byeon (University of Ulsan, Korea), Arnaud Lemmers (Erasmus Hospital, Belgium)</i>	
11:00-11:20	Endoscopic treatment of achalasia	Young Hoon Youn (Yonsei University, Korea)
11:20-11:40	Endoscopic treatment of gastroparesis	Joo Ha Hwang (Stanford University, USA)
11:40-12:00	Evolving techniques and technologies in colorectal ESD	Yunho Jung (Soon Chun Hyang University, Korea)
12:00-12:20	Endoscopic full-thickness resection in the lower GI	Arnaud Lemmers (Erasmus Hospital, Belgium)
13:30-14:50	Session 7. How to cope with complications throughout the GI tract? – Bleeding and afferent loop syndrome	
	<i>Hyun-Ki Yoon (University of Ulsan, Korea), Byung-Wook Kim (The Catholic University of Korea, Korea), Somrach Thamtorawat (Siriraj Hospital, Mahidol University, Thailand)</i>	
13:30-13:45	Endoscopic treatment in acute gastrointestinal bleeding: Updates	Hee Seok Moon (Chungnam National University, Korea)
13:45-14:00	Interventional radiology in acute gastrointestinal bleeding: Updates	Raman Uberoi (John Radcliffe Hospital, UK)
14:00-14:15	What is the afferent loop syndrome?	In-Seob Lee (University of Ulsan, Korea)
14:15-14:30	The role of endoscopic management in afferent loop syndrome	Mouen A Khashab (The Johns Hopkins University, USA)
14:30-14:45	Role of interventional radiology in afferent loop syndrome	Kichang Han (Yonsei University, Korea)
14:45-14:50	Q&A	
14:50-15:20	Coffee Break	

15:20-16:40	Session 9. Multidisciplinary management of postoperative fistulous complication	
<i>Sang-Uk Han (Ajou University, Korea), Chang Won Kim (Pusan National University, Korea), Peter D. Siersema (Radboud University Medical Center, The Netherlands)</i>		
15:20-15:40	Various post-operative fistulous complication: Case-oriented	Do Joong Park (Seoul National University, Korea)
15:40-16:00	Endoscopic management for gastrointestinal fistulous complication - with a focus on the esophagus	Peter D. Siersema (Radboud University Medical Center, The Netherlands)
16:00-16:20	Endoscopic management for pancreato-biliary leakage	Kook Hyun Kim (Yeungnam University, Korea)
16:20-16:40	Radiologic management for fistulous complication	Jung Suk Oh (The Catholic University of Korea, Korea)
16:40-18:00	Session 10. Cutting edge of esophageal stenting for malignant or benign diseases	
<i>Yong Chan Lee (Yonsei University, Korea), Joon Young Ohm (Chungnam National University, Korea), Jiaywei Tsauo (National Cancer Center, China)</i>		
16:40-17:00	Stent use to manage esophageal fistula or perforation: Role of endoscopic intervention	Sang Kil Lee (Yonsei University, Korea)
17:00-17:20	Stent use to manage esophageal fistula or perforation: Role of radiologic intervention	Kun Yung Kim (Jeonbuk National University, Korea)
17:20-17:40	When to use stents in patients with benign esophageal strictures	Prateek Sharma (University of Kansas Medical Center, USA)
17:40-18:00	Adverse events of esophageal stenting	Jiaywei Tsauo (National Cancer Center, China)
18:00-18:30	Dinner Symposium (JW Pharmaceutical)	
<i>Young Deok Cho (Soon Chun Hyang University, Korea)</i>		
	Gastric endoscopic submucosal dissection using ClearCut H Knife	Do Hoon Kim (University of Ulsan, Korea)

Room C

11:00-12:30	Pearls of SGI case conference	
<i>Sang Hyub Lee (Seoul National University, Korea), Ji Hoon Shin (University of Ulsan, Korea)</i>		
11:00-11:15	Four cases of massive hemobilia following stent removal with different fates	Jin Ho Choi (Seoul National University Hospital, Korea)
11:15-11:30	The role of radiologic revascularization at superior mesenteric artery (SMA) stenosis	Hyun Je Yoon (Seoul National University, Korea)
11:30-11:45	Isolated bile leakage after hepatectomy treated by balloon-assisted biliary ablation with absolute ethanol	Yozo Sato (Cancer Institute Hospital of Japanese Foundation for Cancer Research, Japan)
11:45-12:00	Endotherapy for a stone in the main pancreatic duct in a patient with surgically altered anatomy	Josep Ramon Armengol-Miró (W.I.D.E.R Barcelona, Spain)
12:00-12:15	Percutaneous stent placement for pancreatic duct occlusion in a patient with previous partial pancreatectomy	Kichang Han (Yonsei University, Korea)
12:15-12:30	Embolization of esophago jejunal anastomosis leakage using a cut gelfoam and histoacryl	Lyo Min Kwon (Hallym University, Korea)

Scientific Program

DAY 2_Saturday, October 9, 2021

Room A

08:00-09:20	Live Demonstration 3 (Seattle, USA)	
	<i>Hyungun Kim (Soon Chun Hyang University, Korea), Young Koog Cheon (Konkuk University, Korea), Sunguk Jang (Cleveland Clinic, USA)</i>	
	Virginia Mason Medical Center	
09:20-09:50	Coffee Break	
09:50-11:10	Session 11. Strategies for safe and effective biliary intervention in difficult situations	
	<i>DongKi Lee (Yonsei University, Korea), Ung Rae Kang (Daegu Catholic University, Korea), Masayuki Kitano (Wakayama Medical University, Japan)</i>	
09:50-10:10	Rescue techniques in difficult biliary cannulation	Jin Hong Kim (Ajou University, Korea)
10:10-10:30	Single balloon enteroscopy-assisted transpapillary approach in surgically altered anatomy	Yuki Tanisaka (Saitama Medical University International Medical Center, Japan)
10:30-10:50	EUS-guided approach in surgically altered anatomy	Masayuki Kitano (Wakayama Medical University, Japan)
10:50-11:10	Biliary intervention: Extraluminal recanalization for complete biliary obstruction after surgery	In Joon Lee (National Cancer Center, Korea)
11:10-12:30	Session 13. How to get through the bile duct stones that are difficult to remove	
	<i>Young Deok Cho (Soon Chun Hyang University, Korea), Hyung Jin Shim (Andong Hospital, Korea), Richard A. Kozarek (Virginia Mason Medical Center, USA)</i>	
11:10-11:30	Conventional endoscopic treatment of the difficult biliary stone	Richard A. Kozarek (Virginia Mason Medical Center, USA)
11:30-11:50	Role of single operator cholangioscopy for treatment of difficult bile duct stones	Sunguk Jang (Cleveland Clinic, USA)
11:50-12:10	Surgical treatment of bile duct stone: When and how?	Hee Joon Kim (Chonnam National University, Korea)
12:10-12:30	Percutaneous approach for biliary stone removal	Young Hwan Kim (Keimyung University, Korea)
12:30-13:20	Luncheon Symposium 2 (Korea Otsuka Pharmaceutical)	
	<i>Hwoon-Yong Jung (University of Ulsan, Korea)</i>	
	Mucoprotectant for the improvement of gastric atrophy and intestinal metaplasia	Seong Woo Jeon (Kyungpook National University, Korea)
13:20-13:30	Break	

13:30-14:50		Session 15. Local ablation of liver tumors: Present and future	
<i>Su Jong Yu (Seoul National University, Korea), Hyunchul Rhim (Sungkyunkwan University, Korea), Zhengqiang Yang (National Cancer Center, China)</i>			
13:30-13:50	Percutaneous liver ablation. How technology improves outcomes. The end of resection		Mariano E. Giménez (University of Buenos Aires, Argentina)
13:50-14:10	Recent technical advances in RFA for liver tumor		Min Woo Lee (Sungkyunkwan University, Korea)
14:10-14:30	Current status of ablation therapy for HCC in South Korea		Dong Ho Lee (Seoul National University, Korea)
14:30-14:50	Local ablation for liver metastasis		Zhengqiang Yang (National Cancer Center, China)
14:50-15:20	Coffee Break		
15:20-16:40		Live Demonstration 4 (Seoul, Korea)	
<i>Bo-In Lee (The Catholic University of Korea, Korea), Jae Hee Cho (Yonsei University, Korea), Kwang Hyun Chung (Eulji University, Korea)</i>			
	Asan Medical Center Soon Chun Hyang University Hospital Bucheon		
16:40-18:00		Session 18. Current strategy of management of post-operative bilo-pancreatic duct stricture	
<i>Dong Wan Seo (University of Ulsan, Korea), Deok Ho Nam (SAM Hospital, Korea), Gao Jun Teng (Zhongda Hospital, Southeast University, China)</i>			
16:40-17:00	Endoscopic management of refractory post-operative biliary anastomotic stricture		DongKi Lee (Yonsei University, Korea)
17:00-17:20	Novel therapeutic approach for post-operative bilo-pancreatic duct stricture including EUS-guided intervention		Takuji Iwashita (Gifu University Hospital, Japan)
17:20-17:40	Novel therapeutic approach for post-operative bilo-pancreatic duct stricture by interventional radiologist		Charles Y. Kim (Duke University, USA)
17:40-18:00	Classic surgical approaches for post-operative bilo-pancreatic duct stricture		Woohyung Lee (University of Ulsan, Korea)
18:00-18:15	Closing Ceremony		

Room B

08:00-09:20		Plenary Free Paper	
<i>Dong Hee Koh (Hallym University, Korea), Jinwoo Kim (Ajou University, Korea)</i>			
08:00-08:10	Usefulness of in-stent radiofrequency ablation after occlusion of self-expandable metal stent in unresectable malignant biliary obstruction: Multicenter propensity-score matched study		Namyong Park (Seoul National University, Korea)
08:10-08:20	Double-stent system with long duodenal extension for malignant duodenobiliary obstruction		Chang Hoon Oh (University of Ulsan, Korea)
08:20-08:30	Usefulness of short type fully covered metallic stent for benign post-operative proximal biliary stricture other than living donor liver transplantation		Min Young Do (Yonsei University, Korea)

Scientific Program

08:30-08:40	Clinical utility of endoscopy ultrasound elastography for the diagnosis of chronic pancreatitis	Miquel Masachs-Peracaula (W.I.D.E.R Barcelona, Vall Hebron University Hospital, Spain)
<i>Sang Gyun Kim (Seoul National University, Korea), Jiyoung Oh (Kyung Hee University, Korea)</i>		
08:40-08:50	Transcholecystic management of extrahepatic duct stones in poor candidates for endoscopic and transhepatic approaches	Chan Yeop Jeong (Gangneung Asan Hospital, Korea)
08:50-09:00	How often do we need to change percutaneous endoscopic gastrostomy feeding tubes? – A single institute retrospective study about patency of gastrostomy feeding tube	Byung Hyo Cha (Sheikh Khalifa Specialty Hospital, UAE)
09:00-09:10	The hemostatic efficacy and safety of novel hemostatic powder in patients with lower gastrointestinal bleeding	Jongbeom Shin (Inha University, Korea)
09:10-09:20	Predicting survival to transarterial chemoembolization in patients with hepatocellular carcinoma using noninvasive radiomic biomarkers: A multicenter study	Zhi-Cheng Jin (Zhongda Hospital, Southeast University, China)
09:20-09:50	<i>Coffee Break</i>	
09:50-11:10	Session 12. Artificial intelligence in GI diseases	
<i>Eun-Young Kim (Daegu Catholic University, Korea), Sangjoon Park (Catholic Kwandong University, Korea), Yuichi Mori (Showa University Northern Yokohama Hospital, Japan)</i>		
09:50-10:10	Introduction of artificial intelligence	Yoonjae Kim (Gachon University, Korea)
10:10-10:30	Artificial intelligence in the detection, histology, and depth of colorectal neoplasm	Eun Hyo Jin (Seoul National University, Korea)
10:30-10:50	AI in liver imaging	Seung Soo Lee (University of Ulsan, Korea)
10:50-11:10	Visions and scenarios for the role of AI in Gastroenterology: Where are we heading?	Yuichi Mori (Showa University Northern Yokohama Hospital, Japan)
11:10-12:30	Session 14. Cutting edge of management for malignant colonic obstruction	
<i>Tae Il Kim (Yonsei University, Korea), Chang Jin Yoon (Seoul National University, Korea), Hans-Ulrich Laasch (The Christie, Manchester, UK)</i>		
11:10-11:30	Problems still unsolved in endoscopic management for malignant colorectal obstruction	Soo-Young Na (The Catholic University of Korea, Korea)
11:30-11:50	Safety issue of colon stent in the setting of bevacizumab	Hyoun Woo Kang (Seoul National University, Korea)
11:50-12:10	Bridge to surgery: Metal stent placement or decompressing stoma	Peter D. Siersema (Radboud University Medical Center, The Netherlands)
12:10-12:30	Fluoroscopic rescue of failed endoscopic stent placement for obstructing colorectal malignancy	Chang Jin Yoon (Seoul National University, Korea)

13:30-14:50		Session 16. Optimal approach for minimally invasive enteral access	
<i>Dong Ho Lee (Seoul National University, Korea), Jong Yun Won (Yonsei University, Korea), Yasuaki Arai (National Cancer Center Hospital, Japan)</i>			
13:30-13:50	Percutaneous endoscopic gastrostomy: Promise and limits		Hee Kyong Na (University of Ulsan, Korea)
13:50-14:10	Radiologic gastrostomy: Technique and superiorities to PEG		Hans-Ulrich Laasch (The Christie, Manchester, UK)
14:10-14:30	Novel endoscopic approach for enteral access		Shayan Irani (Virginia Mason Medical Center, USA)
14:30-14:50	Novel radiologic approach for enteral access		Ji Hoon Shin (University of Ulsan, Korea)
14:50-15:20	Coffee Break		
15:20-16:40		Session 17. Transarterial radioembolization of liver cancer	
<i>Yoon Jun Kim (Seoul National University, Korea), Dongho Hyun (Sungkyunkwan University, Korea), Rheun-Chuan Lee (Taipei Veterans General Hospital, Taiwan)</i>			
15:20-15:35	Hepatologist's perspective on radioembolization		Do Young Kim (Yonsei University, Korea)
15:35-15:50	Lessons from LEGACY and DOSISPHERE studies		Gyoung Min Kim (Yonsei University, Korea)
15:50-16:05	Radioembolization through extrahepatic collateral arteries		Hyo Cheol Kim (Seoul National University, Korea)
16:05-16:20	Radioembolization for cholangiocarcinoma		Edward Kim (Mount Sinai Medical Center, USA)
16:20-16:35	Radioembolization for colorectal liver metastasis		Rheun-Chuan Lee (Taipei Veterans General Hospital, Taiwan)
16:35-16:40	Q&A		
16:40-18:00		Session 19. Recent update of variceal bleeding management	
<i>Young Seok Kim (Soon Chun Hyang University, Korea), Je Hwan Won (Ajou University, Korea), Edward W. Lee (UCLA Medical Center, USA)</i>			
16:40-17:00	Endoscopic management of variceal bleeding		Jae Young Jang (Soon Chun Hyang University, Korea)
17:00-17:20	Early TIPS for treatment of variceal hemorrhage: Scientific outcomes and medical tribalism		Ziv J Haskal (University of Virginia, USA)
17:20-17:40	BRTO, PARTO, and CARTO: What's the difference?		Edward W. Lee (UCLA Medical Center, USA)
17:40-18:00	Percutaneous embolization of ectopic varices		Hyun Pyo Hong (Sungkyunkwan University, Korea)

Poster Exhibition

- SGI-01** Safety and efficacy of a large-bore metallic stent for distal malignant biliary obstruction
Min Young Do, Sung Ill Jang, Jae Hee Cho, Yonsoo Kim, In-Jung Kim, Kwang-Hun Lee, Seung-Moon Joo, DongKi Lee (Korea)
- SGI-02** Magnetic compression anastomosis for post-cholecystectomy complete biliary stricture: An effective alternative to surgery
Min Young Do, Sung Ill Jang, Jae Hee Cho, Kwang-Hun Lee, Seung-Moon Joo, Moon Jae Chung, DongKi Lee (Korea)
- SGI-03** Clinical outcomes of endoscopic ultrasound-guided transluminal drainage with a novel lumen-apposing metal stent for postoperative fluid collection after pancreatic surgery
Dongwook Oh, Tae Jun Song (Korea)
- SGI-04** Endoscopic ultrasound-guided ethanol ablation therapy for solid pancreatic tumors: A single center experience with 48 patients
Jin Ho Choi, Joo Seong Kim, Nam Young Park, Min Woo Lee, In Rae Cho, Woo Hyun Paik, Sang Hyub Lee, Ji Kon Ryu, Yong-Tae Kim (Korea)
- SGI-05** Comparative effectiveness of prophylactic interventions for post-ERCP pancreatitis among patients with risk factors: A network meta-analysis
Jin Ho Choi, Sang Hyub Lee, Joo Seong Kim, Nam Young Park, Min Woo Lee, In Rae Cho, Woo Hyun Paik, Ji Kon Ryu, Yong-Tae Kim (Korea)
- SGI-06** Safety and efficacy comparison of endobiliary laser ablation with balloon dilation vs radiofrequency ablation in a swine model
Jung-Hyun Lim, Seok Jeong (Korea)
- SGI-07** Preventive effect of biodegradable stents on biliary stricture and fibrosis after biliary anastomosis in a porcine model
Chang-Il Kwon, Sung Hoon Choi, Kyu Seok Kim, Jong Pil Moon, Sehwan Park, Jinkyung Jeon, Gwangil Kim, Jae Young Jang, Min Je Sung, Kwang Hyun Ko, Jun Sik Son (Korea)
- SGI-08** Symptomatic insulinoma successfully treated with endoscopic ultrasound-guided ethanol ablation
Byeong Yun Ahn, Namyong Park, Muhan Yeo, Mi Jin Oh, Hosun Yu, Ji Hoon Hong, Ju Yeon Kim, Moon Haeng Hur, Sang Hyub Lee (Korea)
- SGI-09** Transcatheter arterial embolization for massive hemobilia with N-butyl cyanoacrylate (NBCA) Glubran 2
Yadong Shi, Liang Chen, Boxiang Zhao, Hao Huang, Zhaoxuan Lu, Haobo Su (China)
- SGI-10** Percutaneous placement of fully-covered retrievable stent with anchoring flap for the treatment of biliary anastomotic stricture following living donor liver transplantation
Joonho Hur, Woosun Choi, Joo Hyeok Choi (Korea)

- SGI-11** Laparoscopic assisted ERCP through bypass stomach for CBD stone after Roux-en-Y gastric bypass: A case report
Yoona Chung, Byungmo Lee, Yong Jin Kim, Jae Serk Park (Korea)
- SGI-12** Predictive factors for stent dysfunction and adverse events of EUS-guided hepatico-gastrostomy for malignant biliary obstruction: Multicenter, retrospective study
Se Woo Park, Jae Hee Cho, Sang Soo Lee (Korea)
- SGI-13** Impact of pancreatic fat on the risk of post-endoscopic retrograde cholangiopancreatography pancreatitis
Se Woo Park, Moon Jae Chung (Korea)
- SGI-14** Minimal endoscopic sphincterotomy(EST) with endoscopic papillary balloon dilation(EPBD) is equal to endoscopic papillary balloon dilation(EPBD) only for occurrence of post endoscopic retrograde cholangiopancreatography pancreatitis(PEP)
Hsiang Yao Shih (Taiwan)
- SGI-15** Development of a novel biliary stent with coil-spring structure and a feasibility study in vivo swine biliary stricture model.
In Rae Cho, Sang Hyub Lee, Joo Seong Kim, Jin Ho Choi, Namyong Park, Gunn Huh, Woo Hyun Paik, Ji Kon Ryu, Yong-Tae Kim, Seok Jeong, Don Haeng Lee (Korea)
- SGI-16** Transhepatic portal vein stenting for ectopic variceal bleeding after surgery
Wan Jo, Hyun Pyo Hong, Myung Sub Kim (Korea)
- SGI-17** Clinical outcomes of patients with benign peptic ulcer rebleeding after emergency endoscopy according to the patient's location: A retrospective observational study
Boram Cha, Jin Hee Noh, Ji Yong Ahn, Ga Hee Kim, Hee Kyong Na, Kee Wook Jung, Jeong Hoon Lee, Do Hoon Kim, Kee Don Choi, Ho June Song, Gin Hyug Lee, Hwoon-Yong Jung (Korea)
- SGI-18** Endoscopy technique for endoscopic treatment of duodenal duplication in pediatric patients
Josep Armengol-Miró, Miquel Masachs-Peracaula, Monder Abu-Suboh Abadia, Jordi Armengo-Bertroli, Marc Pigrau-Pastor, Anna Benages-Curell, M Dolores Castillo-Cejas, Jorge Guevara-Cubas, Luz Maria Castro, Cesar Jimenez, Jesus Rivera, Avonello Maynard, Joan Dot-Bach (Spain)
- SGI-19** Outcomes of endoscopic resection for early gastric cancer in very elderly patients: A nationwide population-based study
Tae Jun Kim, Jeung Hui Pyo, Hyuk Lee (Korea)
- SGI-20** Gastric mucosa-associated lymphoid tissue lymphoma diagnosed using EUS-guided fine needle biopsy
Chang-In Noh, Soo-Young Na (Korea)

Poster Exhibition

- SGI-21** Innovative GI stenting- Re-boring the block
Abhijith Bale, Umesh Jalihal (India)
- SGI-22** Gastroduodenal tuberculosis: An uncommon presentation of a common disease
Abhijith Bale, Umesh Jalihal (India)
- SGI-23** Photothermal therapy using gold nanoparticle-coated stent for treating stent-induced granulation tissue formation in the rat esophagus
Jeon Min Kang, Young Chul Cho, Wooram Park (Korea), Dong-Hyun Kim (USA), Ji Hoon Shin, Do Hoon Kim, Jung-Hoon Park (Korea)
- SGI-24** Is bevacizumab a risk factor for colon stent-related perforation?
Jun Lee, Hyoun Woo Kang (Korea)
- SGI-25** Paradoxical reaction of tuberculosis masquerading as a gastric subepithelial tumor
Kwangwoo Nam, Jun-Ho Choi, Won-Ae Lee (Korea)
- SGI-26** Modified percutaneous transesophageal gastro-tubing (PTEG) when commercial PTEG kits are unavailable
Meshari Alali (Saudi Arabia), Ji Hoon Shin (Korea)
- SGI-27** The first-line systemic therapy in advanced hepatocellular carcinoma: An updated network meta-analysis
Jian-Jian Chen, Zhi-Cheng Jin, Hai-Dong Zhu, Gao-Jun Teng (China)
- SGI-28** Transcatheter arterial chemoembolization in spontaneously ruptured hepatocellular carcinoma: A rare but serious condition
Harsh Singh, Jawahar Rathod, Kunal Arora, Shivprasad Jaybhay (India)
- SGI-29** Prognostic value of preoperative prognostic nutritional index and body mass index combination in patients with unresectable hepatocellular carcinoma after transarterial chemoembolization
Shengwei Li, Jin-He Guo (China)
- SGI-30** Direct percutaneous embolization of stomal ectopic variceal bleeding in 73 years old man with cirrhosis
Jihwan Kang, Myungsub Kim, Hyunpyo Hong (Korea)
- SGI-31** Tapping into ascites: Service evaluation of elective day-case paracentesis
Austin See, Joshua Cabada (United Kingdom)
- SGI-32** Safety and efficacy of self-expandable metal stents in malignant duodenal obstruction when using side-viewing duodenoscope
Min Woo Lee, Sang Hyub Lee, Nam Young Park, Jin Ho Choi, Joo Seoung Kim, In Rae Cho, Woo Hyun Paik, Ji Kon Ryu, Yong Tae Kim (Korea)

Poster Exhibition

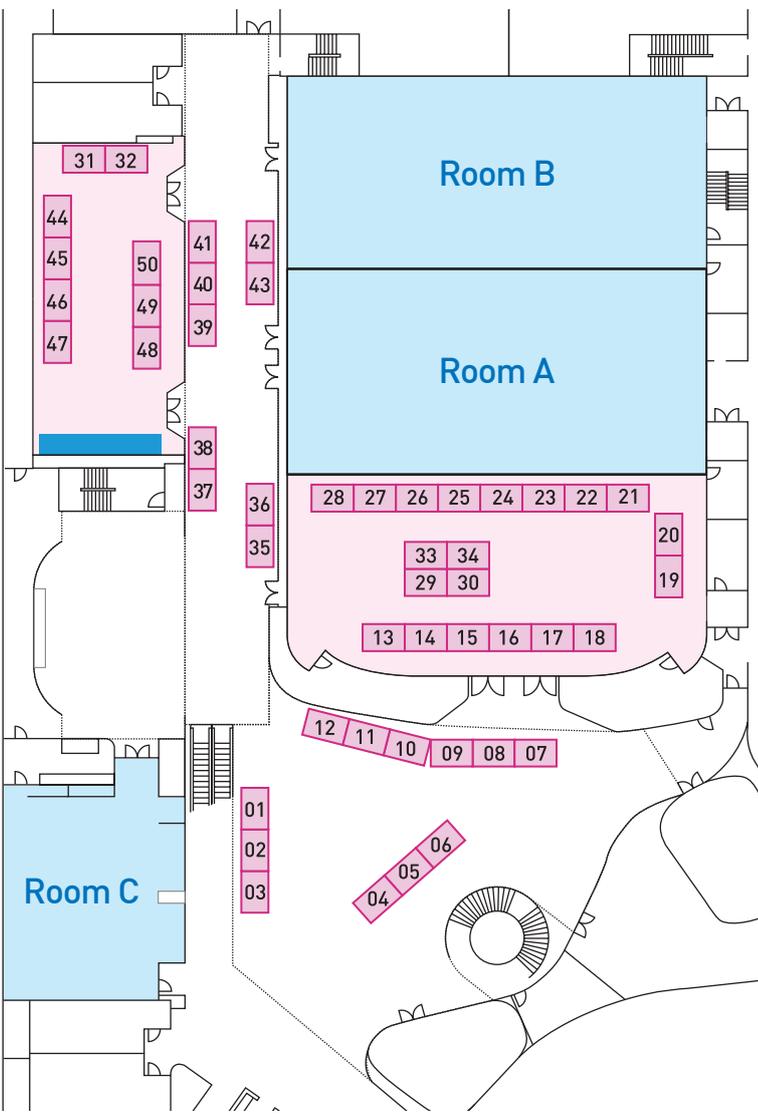

- SGI-33** Plug-assisted retrograde transvenous obliteration of giant gastorenal shunts: Report of 2 cases
Trong Binh Le, Dac Hong an Ngo, Ton Nu Hong Hanh Huyen, Minh Tuan Le, Quang Hung Dang, Hoang Huy Le, Xuan Long Truong, Van Huy Tran (Vietnam)
- SGI-34** Endovascular management of post-appendicectomy ileocolic artery pseudoaneurysm: A common cause leading to an uncommon effect
Harsh Singh, Jawahar Rathod, Shivprasad Jaybhay, Kunal Arora (India)
- SGI-35** How safe is BIS-guided sedation?
Alexander Oh, Hans-Ulrich Laasch, Gregory Royle, Andy Pitt, Damian Mullan, Derek Edwards (United Kingdom)
- SGI-36** The effects of low-pressure pneumoperitoneum versus standard-pressure pneumoperitoneum on abdominal organ injury in laparoscopic surgery: A meta-analysis
Hu Yang, Tao Qingsong (China)

Industrial Exhibition

Exhibition Date and Time

October 8 (Fri.) – 9 (Sat.)
08:00 – 18:00

Booth Layout

Room D

1-3	Pharmbio Korea Inc.
4-6	YUHAN
7-9	GC Pharma
10-12	JW Pharmaceutical
13-14	JEIL PHARMACEUTICAL CO.,LTD
15-16	Chong Kun Dang Pharmaceutical Corp.
17-18	TAEWOOONG MEDICAL
19-20	Dongkook Lifescience
21-22	Myungmoon Pharm.
23-24	Dasol Live Science
25-26	SK chemicals
27-28	inno.N
29-30	Bayer Korea
31-32	Korea United Pharm.
33-34	OLYMPUS KOREA
35-38	Korea Otsuka Pharmaceutical
39-43	Daewoong Pharmaceutical Co., Ltd.
44	Hanmi Pharm Co., Ltd.
45	Dong-A ST
46	S&G Biotech Inc.
47	Bracco Imaging Korea
48	Boston Scientific Korea Co., Ltd
49	GEMA Healthcare
50	Cook Medical Korea
